Miss Edith-Hartzell  
Friend,

Your letter rec'd and contents noted asking me to make the account "as reasonable as possible."

Now Edith - the account as you are charged on my books is very reasonable and you now have been associated enough with physicians to certainly know it.

You ought not forget that I made over one hundred trips to see you, and how many nights I stayed with you, and above all that I cured you and that now you have almost a whole life before you and say Edith - if you Nurses and your Doctor had been neglectful what then?

If there are any body in the world who should have their bills paid in full and promptly it is the Nurse and the Doctor.

If, Edith, you want to pay your

CM

bill at once I will accept twenty  
five dollars in full for the account  
I will never take less and I only  
make this proposition for prompt  
payment as I must have some  
money to meet some bills that will  
be due in a few days and am on the  
sick list so can not get out to look  
after collections.

Let me hear from you soon  
and where I can next find you after  
leaving your present address.

Edith - how have you been getting  
along nursing? I wish you were  
here to nurse me. I know you are  
a good nurse and a fine young woman  
I would like to see you and have a  
pleasant visit

Your friend  
W. J. Carson
